Safety is at the heart of everything we do.</p> <p>Safety comes first. Always.</p> <p>To uphold this commitment, our Community Education team deliver the Railsmart program, a free, statewide initiative designed to promote rail safety and public transport awareness. This program delivers essential safety education to kindergartens, schools, alternative learning centres, and youth and community groups across Queensland.</p>
<b>D2</b>	<p>Model Electronic Railway Group SEQ</p>	<p>MERG (an international group, based in the UK, with a local chapter in South East Queensland) is a group of railway modellers who meet monthly to exchange ideas on how to use modern day electronics to drive their trains, control their layout and add interest such as sound. We have a wide range of people in our group, people with little or no knowledge of electronics, cabling etc through to electrical and electronic engineers.</p> <p>We meet monthly to attend presentations and workshop where we build electronic kits and help each other learn about electronics.</p> <p>If you are interested, please contact Stephen Sherwood 0428 339 521 or by email: <a href="mailto:sequeensland@merg.org.uk">sequeensland@merg.org.uk</a> or find out more go to <a href="http://www.merg.org.uk">www.merg.org.uk</a> or email Stephen Sherwood at <a href="mailto:sequeensland@merg.org.uk">sequeensland@merg.org.uk</a></p>
<b>D3</b>	<p>National Model Railroad Assoc. Australasian Region</p> <p>Div 1 <a href="mailto:sup@nmra.org.au">sup@nmra.org.au</a></p> <p>National Model Railroad Assoc. Australasian Region C\ - 9 Greentree Crescent, Forest Lake 4078</p> <p>Paul Rollason 0419 670 653</p> <p><a href="http://www.nrma.org.au">www.nrma.org.au</a></p>	<p>The Australasian Region of the National Model Railroad Association (NMRA). The Region covers Australia, New Zealand and some Pacific Islands. The purposes of the Region are to promote, stimulate, foster, and encourage by all manner and means the art and craft of model railroading and the preservation of the hobby's history, science, and technology. The Region accomplishes its purposes through its Divisions, publishing the MainLine (a bi-monthly magazine), holding monthly gatherings (including clinics) holding Conventions and by promoting the NMRA Achievement Program. To further your enjoyment of the best hobby in the world, why not consider joining the more than 860 Australian and New Zealand members of the National Model Railroad Association. Membership enables you to meet other model railway enthusiasts of all scales and prototypes. NMRA members and their families meet each month at a member's home to marvel at the layout, discuss modelling and socialise. Members may borrow DVDs from the library on modelling topics, participate in workshops and enjoy the conventions which are staged around the country each year.</p>

<b>D4</b>	<p>Lancashire &amp; Yorkshire Railway Society</p> <p>Mr Peter Hunt 120 Ganbenang Road, Lowther NSW 2790</p> <p>0433 808 468</p> <p><a href="http://www.lyrs.org.uk/the-society/">www.lyrs.org.uk/the-society/</a></p>	<p>The Lancashire &amp; Yorkshire Railway was one of the busiest and most complex of the pre-grouping of the British Railways. It ranked fifth in overall size and stretched across England from Liverpool and Fleetwood in the west to Goole in the east, and served a greater population per mile of route than other major lines. With much of its mileage in hilly terrain civil engineering works were massive with numerous tunnels, bridges, viaducts and some fearsome gradients. The L&amp;Y was known as the "Business Line" and was very epitome of the area through which it ran serving the great textile towns, collieries and major Irish and North Sea Ports. Its Passengers Services ranged from smartly timed expresses to the intense and complex local workings around Liverpool and Manchester.</p> <p>Through a team of energetic and competent managers the railway was at the forefront of engineering development. It was an early user of the Belpaire firebox and the first to introduce superheated steam. Electrification of local services started in 1904 and it operated the largest railway owned shipping fleet in the country. The locomotives in their smart black paint with red and white lining and oval brass number plates hauled trains of lake &amp; tan liveried carriages and long freight trains over the difficult Pennine Terrain.</p>

<b>D7</b>	<p>Queensland Society Model and Experimental Engineers</p> <p>0491 615 521</p> <p><a href="http://qsmee.com.au">qsmee.com.au</a></p> <p>122 Warner Road</p> <p>Warner QLD 4500</p>	A multifaceted display of the Queensland Society Model and Experimental Engineers achievements in 7.25inch, 5inch, 3.5inch, 2.5inch and 45mm G Gauge.
<b>D8</b>	<p>Scratch Building Queensland Railway Wooden Wagons</p> <p>0468 823 050</p> <p><a href="mailto:grant@hotmail.com">grant@hotmail.com</a></p> <p>26 Dampier Drive, Andergrove 4740</p>	<p>The steam era of QR is attractive because of the large range of classes of wooden wagons. Even within classes, there were large variations. To capture that range especially of one offs, scratchbuilding is a great approach to give individuality to each wagon. What better way to represent wooden wagons than to use actual wooden strips and sheets. Building in wood presents some challenges. Come and discuss possible ways to overcome these and achieve a satisfying result.</p>

<b>H2</b>	Australian Railway Heritage Society Queensland Division GPO Box 682, Brisbane 4001 0412 458 997 57a Freeman Road Ashwell <a href="http://www.arhs-qld.org.au/">www.arhs-qld.org.au/</a> <a href="mailto:jpollard67@gmail.com">jpollard67@gmail.com</a>	The ARHSQD is a not-for-profit society, that suits all sorts of railway enthusiast. We have provided Main Line Rail Tours in the past, and we are confident of these commencing in the future. We have a Historical Railway in the foothills of Rosewood, at 57a Freeman Road Ashwell, which has in the past provided train trips on our Historical Branch Line, and we will be re-commencing these sometime in late 2025 with current rollingstock. Our museum is open to the public from July 2025, for inspections of the site and the Historic Rollingstock we have. We are always looking for people to help preserve our past. Our caretaker is on site most days for visits during the week, but our sales car & refreshment room is only open on Sunday when we are open to the public. Visit our website to see when we will recommence Open Days for you to visit. You can come and see our selection of books, CDs & DVDs that will allow to relive the days of Queensland Railways. We are more than happy to discuss membership and opportunities to help at our railway at Rosewood, helping preserve the heritage of Queensland Railways Past. Ask one of our friendly volunteers about how you can become a member today. We also conduct main line steam train trips to locations around Brisbane, and currently the Society is running trips to Grandchester. Look at our Facebook Page and watch for future tours. <a href="http://www.arhs-qld.org.au/">www.arhs-qld.org.au/</a>
<b>L01</b>	Funicular - AMRA Queensland C\ - AMRA Queensland	1:24 G Scale Cliff Railway - Counter Balanced Cable Transport System found around the world
<b>L02</b>	"Tim's Tiny Trams" (also known as Heathcombe)  C\ - AMRA Queensland	"Tim's Tiny Trams" features two 1/48 scale tram cars running on 16.5mm automatic reversing tracks. The layout is a British town in the 1930s, and built to fit in the back of my car.

Number	Exhibitors Name	Description
<b>L03</b>	Triang with Minic Motorways C\ - AMRA Queensland	In the 1960's, Minic Motorways was produced as a companion to the Tri-ang Railways system. The range included MinicRail items that enabled the two systems to be used together.
<b>L04</b>	Spring Bluff C\ - AMRA Queensland	Spring Bluff is HOn3.5 1:87 Scale Layout modelling the Queensland Rail Station and it passing loop on the Toowoomba Range West of Brisbane. The layout features many of the QR & QGR Rolling Stock that has been seen on the climb to Toowoomba, both Steam & Diesel Eras.

<b>L21</b>	Miniature Train Club - Gold Coast 193 Rifle Range Road, Pimpama Queensland 4209 Glen McCarley -Secretary 0435 064 004 <a href="mailto:secretary@mtcgc.org.au">secretary@mtcgc.org.au</a> <a href="http://www.mtcgc.org.au">www.mtcgc.org.au</a>	“Maindustry Yard” is a new freelance layout by the “Miniature Train Club in HO Scale, depicting no particular location, timeline or prototypical train type. Maindustry Yard shows a mainline passing through a typical yard area with different industries and shows the operations of both the main and the yard. Maindustry Yard typifies the possibilities within the Model Train Hobby and the enjoyment that can be had.
<b>L22</b>	Woodhill - Action Model Train Club	HO - A large layout that features a figure 8 over/& Under cross over. 6 line staging yards - farm & prairie US countryside, homestead with farm machinery and live stock. Using NCE DCC System
<b>L23</b>	Thomas U Drive - Action Model Train Club	Thomas U-Drive OO DC Layout with 2 Main Lines Loo, a Town, and industry and a quarry with “Thomas and other favourite steam engines and rolling stock (freight & passenger). Fire Brigade is in action. There are signals for your added fun. You are invited to run the trains. Look out for “Rosie” with her rolling eyes and 2 or 3 Thomas. Supervisors who are dressed in “Thomas” Aprons
<b>L24</b>	Cooloolawah (Queensland Railways Hon3.5) 0439 729 703 <a href="mailto:Isbelcher.90@gmail.com">Isbelcher.90@gmail.com</a>	Cooloolawah depicts both main line and branch operations of Queensland Railways (QR) broadly set in the 1960/70's era. A double track mainline is set at the back of the layout servicing long distance passenger/mail trains and heavy goods. The feature of the layout is the branch at the front with a small station, through goods shed and loading ramp.
<b>L25</b>	Stannumvale (Queensland Railways Hon3.5) 0439 729 703 <a href="mailto:Isbelcher.90@gmail.com">Isbelcher.90@gmail.com</a>	Stannumvale illustrates standard Queensland Railways (QR) practices of the 1960's. The layout's inspiration comes from the old Toowoomba to Wallangarra mainline but has terminating suburban services added to provide variety. The central feature is the impressive arched-roofed Stannumvale Station catering for both mainline and suburban trains. Local industries and a loco depot add further interest and operational activities.
<b>L26</b>	Cloudland. K Faulkner	“Cloudland” and is a HO scale animated diorama depicting the funicular railway that ran from Breakfast Creek Road up to the Cloudland Ballroom (or more correctly, the Brisbane Luna Park). The funicular operates under automated computer control.
<b>L27</b>	Clandestine Operation. K Faulkner	“Clandestine Operations” and is an OO scale micro-layout – essentially a shunting layout. It is set in 1944 and features predominately LNER industrial locomotives and stock. The layout is operated from the front. Control is either DCC or DC.
<b>L28</b>	Division Valley - Jeff Rosenberg	Division Valley is a HO T - Trak Layout Built by Jeff and Daughter Helena

Number	Exhibitors Name	Description
<b>L29</b>	Walloon - Logan District Model Railway Club 76 Springlands Drive, Springwood Qld 4127 0434 822 731 <a href="http://www.ldmrc.com">www.ldmrc.com</a> <a href="mailto:secretary@ldmrc.com">secretary@ldmrc.com</a>	Walloon station is one of the original stations on the line from Ipswich to Biggs Camp (now Grandchester) and was opened in 1865. Since this time the line has been extended out west, the layout is HON3.5 and is set in the period of 1960 - 1980.
<b>L30</b>	Country - Logan District Model Railway Club 76 Springlands Drive, Springwood Qld 4127 0434 822 731 <a href="http://www.ldmrc.com">www.ldmrc.com</a> <a href="mailto:secretary@ldmrc.com">secretary@ldmrc.com</a>	A theme / place of the layout is to be made to accommodate Australian, American/ Canadian, and British Railway trains. At time of running of trains on the layout, only one type of prototypical train is to run per session. A session may be a morning or afternoon or day. e.g. American in the morning and English in the afternoon to keep the prototypical look.
<b>L31</b>	High Country - Logan District Model Railway Club 76 Springlands Drive, Springwood Qld 4127 0434 822 731 <a href="http://ldmrc.com">ldmrc.com</a> <a href="mailto:secretary@ldmrc.com">secretary@ldmrc.com</a>	An individual constructed layout based on a "T" track system, each unit has been constructed separately to a general style, each unit is interchangeable with each other. The scenery is based on the mountainous region of Banff in Canada.
<b>L32</b>	Cleat Country - Eion Wolter	Cleat County - a compact double loop layout in N Scale. Designed and built by Eion Wolter & Peter Johnston - Maximum Track length on a small size Layout.
<b>L33</b>	Timmy & Granddad's Train Set	Part B Layout Description: A OO Gauge layout made by Timmy (6) and Grandad. It features a factious English village where Thomas and his friends (some from British Railways) are able to have lots of adventures. NB. This layout will be joined to "Lindale" at the train show via a Suspension Bridge/Cricket Pitch to allow seamless train operation between the two layouts. Total length of both layouts = 13.0m..
<b>L34</b>	"Lindale" - Eion Wolter	Part A This award winning layout was built by Eion Wolter and Peter Johnston Spend some time to enjoy all its special features for young and old alike. OO Scale
<b>L35</b>	British Railway Modellers Association Modular Layout & Modelling Clinic 0409 473 483 <a href="mailto:jrostron@bigpond.com">jrostron@bigpond.com</a>	The British Railway Modellers of Australia Inc (BRMA) is an association for anyone interested in modelling the railways of the UK. Our members work across all eras and in all scales popular for modelling British railways e.g. O, OO, P4, EM, TT & N. Our meetings are held in various members homes each month across Brisbane and SEQ. Please come and say hello at our show stand, where we will also conduct modelling clinic.

Number	Exhibitors Name	Description
<b>L36</b>	Glindale - Grant & Alastair Linning	Glinvale is a DCC controlled HO layout running mainly eueensland Railway Locomotives and rolling stock. It is a compact country layout with a single main line. It features passing loops, a cattle loading yard, a goods yard, and a locomotive depot which includes a turntable, and a two bay engine shed.
<b>L37</b>	Golden Valley - Robert Moreton	“Golden Valley” is a fictional town running British & American trains. DC & DCC controlled trains, 2 main tracks. Any questions please ask.
<b>L38</b>	South Pine - Railway Modellers Club of Queensland 20 Terrence Road Brendale  0418 793 372 <a href="mailto:trevor.kerr@live.com.au">trevor.kerr@live.com.au</a>  <a href="http://www.rmccq.org.au">www.rmccq.org.au</a>	South pine is a modular layout built by the Railway Modellers Club of Queensland to cater for the exhibition needs of our members. The layout is designed to run DCC locomotives, and while it has a basic Australian look and feel trains from all around the world, in particular the US and Europe, can also be seen. It is based on an industrial area with passing loops, engine facilities and some local industries. This allows trains to be always on display with continuous operation on the mainline or shunting in a siding or loco area. Some of the industries or commercial premises displayed are strong supporters of our club. The layout is transported in a purposely designed trailer to ensure protection and only needs one member to transport. For details of our club, visit <a href="http://www.rmccq.org.au">www.rmccq.org.au</a> . Visitors are always welcome.
<b>L39</b>	PINE RIVERS Modellers Club of Queensland 20 Terrence Road Brendale <a href="http://www.rmccq.org.au">www.rmccq.org.au</a>  <a href="mailto:rmccq.org.au@gmail.com">rmccq.org.au@gmail.com</a>  0412 884 345	PINE RIVERS is an N scale modular layout loosely based on the NTRAK standards. This layout, by the Railway Modeller's Club of Queensland Inc, is always being modified and this year includes a Point to Point Tourist railway, fully controlled automatically with a DCC shuttle from the UK. The visiting Circus is still in town. Listen for the music coming from the Big Top. The Sporting Complex for Tennis, Swimming and Basketball has been upgraded. A fully DCC controlled Industrial area has been developed to help support the existing Wheat Loading Silos and Light Industries with rail services. Points in this area are activated by slow motion servos controlled by DCC throttles. The Housing Estate continues to grow and is getting closer to occupation. All this surrounds the Canyon River Scene with its Township. Due to heavy rain, the rapids are running with white water crashing over the rocky river bed. The Town Council has upgraded security by installing street lights to the township.
<b>L40</b>	Laidlaw - Victorian N Scale Collective 0473 002 703 <a href="mailto:main@vnsc.org.au">main@vnsc.org.au</a>	This is an N scale layout (1/160th real size) in which the distance between the rails (the gauge) is 9 mm (hence N for nine). Although it is not a model of a real location, it is representative of typical railway scenery in rural Victoria. The sweeping curves and open countryside featured in the layout are major benefits of modelling in N scale.

We currently offer 21 different sizes, all of which will be on display at the show on our stand.
<b>T14</b>	Train World - Melbourne Train World Pty. Ltd. 290 Bay Street Brighton 3186 Phone (03) 9596 6342 Web site: <a href="http://www.trainworld.com.au">www.trainworld.com.au</a> Email: <a href="mailto:trainworld@trainworld.com.au">trainworld@trainworld.com.au</a> Internet Orders: <a href="mailto:internetsales.tw@trainworld.com.au">internetsales.tw@trainworld.com.au</a>	Situated in suburban Melbourne, in the bayside suburb of Brighton, Train World is a mecca for model train enthusiasts. We stock an extensive range of Australian, US and UK models. Backing this up with a great range of scenery, buildings and all the equipment you need to build your layout. We have an extensive range of books and magazines on both model and full-size railways. Mail order is a speciality. We are very close to the North Brighton railway station on the Sandringham line. (22 minutes from the city.) Our hours are: Monday to Thursday 10am to 6pm, Friday 10am to 9pm, Saturday 9am to 5pm and Sunday and public holidays 11am to 4pm. We have a large range of items now up on our e-commerce site. Ranging from Locomotives, carriages, wagons, books, track, scenery and each week we add more items from the extensive range of stock that is all available at Train World P/L.
<b>T15</b>	Platform Printing - Joel Ross-Sampson  <a href="http://platformprintingaustralia.com">platformprintingaustralia.com</a>  <a href="mailto:hello@platformprintingaustralia.com">hello@platformprintingaustralia.com</a>	Platform Printing Australia is a local business based on the Sunshine Coast where we design and print tiny things for tiny worlds. We specialise in detailed Australian-themed 3d printed environment and platform accessories as well as designing and printing custom orders if you're needing something specific for your model railway network. From platform signs and benches, to kangaroos and cassowaries, our detailed prints add character and realism to any layout or custom-built diorama, helping bring your specific vision to life.
